

Good afternoon,

Crews will begin to reconstruct and expand Interstate 39/90 southbound, from East Church Road, near the US 51 interchange (Exit 156), and the Dane/Rock County line near Edgerton. This Interstate expansion will be similar to last year's expansion on I-39/90 northbound in this area.

What you need to know:

- Electronic weekly construction updates for this project will start Friday, March 16, and continue through the 2018 construction season.
- **During daytime hours and weekends, I-39/90 remains open to two lanes of traffic in each direction** with a temporary barrier wall separating northbound and southbound traffic.
- Nightly single lane closures are expected on I-39/90 in this area between 8 p.m. and 5 a.m. Monday through Friday.
- Anticipated construction staging near Edgerton:
 - Work will occur on the southbound Interstate lanes within these limits.
 - In about two weeks, all Interstate traffic will shift onto the newly completed northbound side via crossovers, while the adjacent eight-mile Interstate section is reconstructed and expanded.
 - Besides occasional nighttime closures, ramps will remain open at all interchanges via temporary connections:
 - [WIS 73/US 51](#) interchange (Exit 160); and
 - US 51 interchange (Exit 156).
 - Lake Drive under I-39/90 in Edgerton is anticipated to be closed from mid-April to early September 2018 for bridge construction over the roadway (weather-permitting).
 - Alternate local routes are required during this long-term closure. Access for emergency vehicles will be provided.
- This section of the Interstate project is scheduled to be completed in mid-November 2018.
- All lane restrictions, ramp closures and work operations are weather dependent and subject to change.
- Remember to be alert for crews and equipment in this area, and drive with caution through all work zones.

Help us spread the word and forward this email to family, friends and co-workers who travel this area, provide the [I-39/90 Expansion Project website](#) link and encourage them to [sign up for project email updates today!](#) You can also follow the [project Facebook page](#) and share the project post(s).
