

Good afternoon,

This week, crews will begin to reconstruct and expand Interstate 39/90 northbound, from East Church Road, north of the US 51 interchange (Exit 156), to County AB just south of Madison.

What you need to know:

- Electronic weekly construction updates for this project will start Friday, March 23, and continue through the 2018 construction season.
- **During daytime hours and weekends, I-39/90 remains open to two lanes of traffic in each direction** with a temporary barrier wall separating northbound and southbound traffic.
- Nightly single lane closures are expected on I-39/90 in this area between 8 p.m. and 5 a.m. Monday through Friday.
- Anticipated construction staging from north of Edgerton to Madison:
 - Work will occur on the northbound Interstate lanes within these limits.
 - By early April, all Interstate traffic will shift onto the southbound side via crossovers, while the adjacent ten-mile Interstate section is reconstructed and expanded.
 - Besides occasional nighttime closures, ramps will remain open at County N interchange (Exit 147) via temporary connections.
 - The following local roads under I-39/90 are anticipated to be CLOSED during the construction season for bridge work:
 - County B – cannot be closed at same time as County W
 - County W – cannot be closed at same time as County B
 - Drotning Road
 - County MN
 - Alternate local routes are required during these closures. Access for emergency vehicles will be provided.
 - More information on closure duration and timelines will be shared via this email list and the I 39-90 Project website.
- This section of the Interstate project is scheduled to be completed in mid-November 2018.
- All lane restrictions, ramp closures and work operations are weather dependent and subject to change.
- Remember to be alert for crews and equipment in this area, and drive with caution through all work zones.

Help us spread the word and forward this email to family, friends and co-workers who travel this area, provide the [I-39/90 Expansion Project website](#) link and encourage them to [sign up for project email updates today!](#) You can also follow the [project Facebook page](#) and share the project post(s).
